AIRPLANE MAIL SERVICE BEING TESTED BY U. S.

Omaha Will Be Headquarters For Night Flying Division—Will Travel From New York to San Francisco

OVER 400 LETTERS AND PAPERS TAKEN ON FIRST TRIP

By Associated Press.

OMAHA, Aug. 21.—Somewhere between Omaha and Grand Island, two aircraft which started today to inaugurate transcontinental mail service will pass each other. Second assistant post master general Paul Henderson and a number of others are here for the event. Omaha will be headquarters for the night flying squadron and orders will be sent from here by radio directing two history-making crafts. The route from New York to San Francisco measure twenty-six hundred eighty miles. Powerful electric beacons will be placed at five regular landing field: Chicago, Iowa City, Omaha, North Platte and Cheyenne. At thirty lesser points also will be placed and all will point the way for the pilots.

By Associated Press

HEMPSTEAD, N. Y., Aug. 21.—With one mail plane winging its way from San Francisco to New York, another took off from Hazelhurst Field for the Pacific coast in the first of five days tests inaugurated by the government to demonstrate the feasibility of permanent transcontinental air service. The plane carried thirty-four hundred letters, a few papers, and official communications. More than twenty-six thousand special delivery letters were received for the trip but all could not be taken.

By Associated Press

SAN FRANCISCO Aug. 21.—Twenty eight hour mail service between San Francisco and New York was inaugurated here today when at air mail service plane stepped off, carrying sixty-four pounds of first class mail.

COMMERCIAL PLANE PILOTS ARE TRAINED AT SCHOOL

CINCINNATI, Aug. 21.—A contest designed to accomplish the double purpose of building a reserve of qualified pilots for commercial lines of the army and also to increase the membership of the National Aeronautic Association, began here August 15 to continue until September 30. Contestants obtaining 100 members for the organization will be given free scholarships, the person who gets the greatest number of members will be given a plane, fully equipped.

D. M. Outcalt, assistant prosecutor of Hamilton county, who is governor of the National Aeronautic Association, has charge of the contest and will determine the local prize winners.

NINE BOYS PASS SCOUT EXAMINATION LAST NIGHT

Five boys passed the examination for Second Class Scouts and four passed the Tenderfoot Scout examination at the meeting held at Kentenva Hall last night. Philip Arthur was in charge of the meeting.

All who took the examination passed it successfully. An average of 75 was necessary for passing.

Boys who passed the Second Class examination and the grades they made are as follows Moss Campbell, 97; Tuco Stopinski, 94; Paul McClure, 90; Harry Ginsburg, 93; and Julian Avent, 95. Grades of Tenderfoot applicants are: Harry Gaunt, 90; Stewart Mann, 7; William Wilson, 85 and Charles McManus, 90.

HATFIELD INFANT DEAD, BURIED THIS AFTERNOON

Eugene Willis Hatfield, age four months, son of Mr. and Mrs. Thomas J. Hatfield, died yesterday. The child is one of a set of twins the other of which died only twelve days ago. Interment was in the Colson cemetery at 2:30 this afternoon.

BRADLEY MASON MEETS WITH ACCIDENT AT HIS HOME

Bradley Mason of Harrogate broke his arm Monday night while swinging in a rope swing near his home. He was taken immediately to Cumberland Gap where his arm was set.

"THE WHOLE OUTFIT— WORM AN' ALL" BUT EVEN WORM WILL TURN

In a little town not far away, some folks have solved the problem of what to do between nine and ten o'clock on a dark summer night.

It was nearing train time; a weary speaker stood near the station busy with his thoughts; he had made a long speech that day in a little village many miles from the railroad; a whip-poor-will called from his woody hiding place.

"Yas," a voice drawled from out the stilly black, "I bought thirty-four dollars worth last week—the pure stuff."

A second voice grunted as if in doubt.

"Got it fer $8 and sold it fer $10," the holder one continued.

"You didn't make much at that, did you?" the reticent second voice vibrated interest.

"No, I didn't make much but I had all I wanted to drink. He laughed. "I could a' got the whole outfit fer forty dollars—worm and all. Hit's a dandy. It'll turn out twenty-four gallons a day if it's run in two shifts."

"That's purty good. You oughta bought it." There was real interest in the other voice now.

"If I had time to fool with it, I reckon I would. There's good money in it. Them fellers over there, I reckon they're making from $10 to $12 a day, clear money."

"Have you seen Jeff's new one?" the partner spat violently.

"Yep! But it's not as good as the one I could a' bought. It can't run off more'n a gallon an hour and you have to fill it up three or four times durin' the day." The conversation was waxing warm.

It was waxing warmer as the glaring headlight from the night train and its shrill whistle warned the waiters of its approach.

The weary traveler climbed aboard. The train sped away.

LARGE PURCHASE TENN. COAL LAND

Chicago Interests Purchase 22,000 Acres Coal Lands in Tennessee—Will Mine By-Product Coal

By Associated Press.

CHATTANOOGA, Tenn., Aug. 21.—The purchase of 22,000 acres of coal lands in Marion County, Tennessee, by Chicago interests who will operate as the Southern Fuel Corporation in the development of the property for the production of by-product coal, has been announced here by Floyd Still Moore of Chicago, one of the purchasers.

A survey of the property has been made and it is said a seam of coal has been disclosed ranging from 6 to 7 feet, with 80 feet of limestone.

L. M. U. STUDENT INJURED WHILE CUTTING TOBACCO

Gray Long, a Smith-Hughes student at the L. M. U., was painfully cut yesterday in teaching some other boys to cut tobacco. He is improving today and indications are that he will be able to be out within a few days.

He received a deep flesh cut in the leg. Efforts were made to get medical assistance at Cumberland Gap, but this not being possible at the time, the young man was brought to the Brosheer-Brummett hospital late yesterday afternoon.

LOCAL GIRL SCOUT OFFICERS MEETING CALLED TOMORROW

A meeting of Girl Scout officers is called for 3:30 tomorrow afternoon at the Carnegie Library. The meeting will concern the Girl Scout work for the fall and winter. It is special for the mothers and officers of both troops. All mothers of the two local troops are especially urged to be present. The meeting will be under the supervision of Mrs. H. H. Saunders, local director; Mrs. W. C. Stair, captain of Troop No. 1; and Mrs. T. T. Gibson, captain of Troop No. 2.

INJUNCTION SUIT HEARING AT HARLAN TODAY

Parties to the West End injunction suit left for Harlan this morning where the hearing of the suit was scheduled to take place before Judge J. G. Forrester early this afternoon.

Judge T. G. Anderson who had been retained by the Humbard Construction company did not attend the hearing. R. L. Maddox, city attorney, represented the city and the construction company, co-defendants in the suit. John Howard represented A. C. Carr et al, plaitiffs in the case.

BULLETINS OF FALL FESTIVAL ARE COMPLETE

Premium Lists Will Be Distributed By Merchants' Association—Variety of Features Are Planned

FESTIVAL WEEK WILL BE PERIOD OF BARGAINS DAILY

The members of the Retail Merchants Association are devoting this week to the distribution of the Harvest Festival bulletin. According to S. M. Reams, the president of the association, it is the plan to place a bulletin in every home in Lee and Claiborne counties and in the homes of the farmers of Bell county. Mr. Reams says that keen interest is being manifested in the success of the Festival which is to be held on September 20, 21 and 22.

Already people are phoning in and making inquiries in regard to the dates the displays, and the rules for the exhibits. Local members of the association are planning many schemes for giving away merchandise.

W. J. Callison has announced that he will give away a Mastercraft Sellers Kitchen Cabinet. The visitors who register at Mr. Callison's store will have their names placed in a receptacle. At 3 o'clock on the afternoon of September 22, a name will be drawn. The owner of the lucky name, if he be present, will receive the cabinet.

A Singer Sewing Machine will also be given away. It is now on display at the Singer Sewing Machine company's office here. Everybody attending the festival will have one chance at the machine. The visitors will register at the office of the company at the Harvest Festival grounds, giving their name and address. Each will be given a card with a number, and a duplicate of this will be deposited in a large barrel. At 2 o'clock Saturday afternoon, September 22, the person who holds the number drawn will be given the machine.

Alva Campbell will give a $10 dahlia bulb to the person who shows the best assortment of named dahlias. No dahlias entered in any other display can be entered in this one contest.

Many other similar prizes will be given which will be announced later by individual merchants.

The Harvest Festival will be preeminently a bargain week for buyers in Middlesboro.

The entertainment committee of which Otto Brown is chairman is making plans for providing abundant amusement for every period of the day during the three Festival days.

The bulletin which is just off the press is a 66-page booklet containing the list of exhibits for the Festival as well as description of the various concerns cooperating to make the Festival a success. All persons desiring any information whatever concerning the Festival may get it from S. M. Reams, president of the association, who will refer the inquiries to the proper committee.

The purpose of the Harvest Festival is to foster an interest in the growing of agricultural products in this region, to develop in Middlesboro an outlet for the products, and to cultivate a harmonious trade relation between the retail merchants of Middlesboro and the farmers of Lee, Bell and Claiborne counties.

All the farmers of the three counties are urged to come and bring their entries.

IMPORTANT LINK WILL BE BUILT

LaFollette-to-Jellico Sector of Dixie Highway Assured—Survey Begins Within Two Weeks

The Dixie Highway completed thru Campbell county now seems assured. The county court voted some time ago to put up the county's share at any time the State and Federal aid could be secured.

Mr. Creveling of the State Highway Department spent several days recently investigating routes. Within two weeks the state engineers will be on the ground to make the preliminary survey.

Four surveys will be made and the best route will be selected. The present route will be one. Another will be surveyed from Pryor Russell's store via Falls of White Oak. Another will be surveyed via Cotula and Motley and the fourth will run via Cotula over the mountain intersecting the present pike between High Cliff and Jellico.

The construction will be of asphalt, 18 feet wide on Telford base. On this project the Federal Government pays fifty per cent of the cost, the State sixteen and two thirds, and Campbell county thirty three and one third.

The cost of the survey will be borne by the state and government and the state will maintain the road forever.

Another interesting feature of this project is that if the $75,000,000 bond issue ever passes, all the money expended by the county will be refunded. This road is now a possibility of the near future if all citizens will get together and work for it.

2 FIREMEN KILLED IN BROOKLYN BLAZE

47 Persons Injured When Roof of New Plaza Dance Hall Caves In

By Associated Press

NEW YORK, Aug. 21.—Two firemen were killed when the roof the new Plaza Ball in Brooklyn fell in during a spectacular fire last night. Forty-seven men, mostly firemen, were injured. First reports placed the number of dead at ten.

MINER INJURED BY FALLING SLATE AT FORK RIDGE

Pete Riggsby, miner at Fork Ridge was seriously injured yesterday afternoon by falling slate. He was rushed to the Brosheer-Brummett hospital after the accident where, it was reported this morning, his injuries are serious.

Carlos Gilbert, brother-in-law of the injured man, was standing near when the slate fell. The block weighed about two tons, he stated, and fell without warning. A part of it crushed Riggsby in the back. He was unconscious and suffering intense pain when brought to the hospital.

Weather Forecast

WASHINGTON, Aug. 21.—For Kentucky: Unsettled; probably thunderstorms tonight and Wednesday. Cooler Wednesday, and in extreme west portion tonight.

Rebel Chieftain's Son

This is Pancho Villa II, son of the famous Mexican bandit chief. The little chap isn't a year old, but he closely resembles his father, who was recently killed near Parral. The boy is named "Panchito," and was idolized by his famous father.

DEVELOPMENTS IN KOREA IS GULICK'S TALK

Says That Relationship Between Korea and Japan More Satisfactory Now—Korean Churches Growing

BRUTAL PUNISHMENT BY POLICE TO BE STOPPED

CHAUTAUQUA, N. Y., Aug. 21.—"Japan has greatly modified her treatment of the Koreans and is undoubtedly trying to win their friendship and to promote the complete psychological unification of the Korean and Japanese people," said Dr. Sidney L. Gulick in speaking on "Recent Developments in Korea" at the Conference on International Relations From the Christian Viewpoint being held under the auspices of the Commission on International Justice and Goodwill of the Federal Council of Churches. Dr. Gulick is secretary of the commission. He is an authority on the Far East and has recently returned from a trip of nearly a year in China, Japan, Korea and the Philippines. A few Japanese, however, he declares, state that in their opinion Koren is likely to become Japan's Ireland.

In his address Dr. Gulick said, in part: "I was told that even yet all public meetings and church services are under the supervision of the police. Missionaries and Koreans alike resent this close supervision.

"While the higher Japanese officials are convinced that the missionaries are not seeking political ends in their Christian work, yet the lower officials for the most part not being Christians, do not appreciate the missionary motive. The movements of every missionary are closely watched by the police and every utterance by preachers and pastors is carefully scrutinized. These procedures are not now so pronounced or officious as formerly, but they still continue, I was assured.

"The Korean churches are growing in membership and in contributions and give evidence of faithful work and of serious determination and religious zeal. Latest available figures show that there are 91,818 church members, with other adherents of paid workers, both men and women, is 1,683.

Inae;vgFed-cm fcm cm c cmfwyppp

"It is not far from the truth to say that among the missionaries one finds an atmosphere of moderate optimism. Many of the grounds of complaint that were the cause of serious solicitude have been removed or at least largely modified. The higher officials of the Government General seem deeply in earnest to do the right thing by the Korean people. Abuses prevalent three and four years ago have been to a large measure abolished and much tedious and irritating red tape has been simplified.

"Flogging as a punishment has been stopped. Earnest efforts by the government are being made to put an end to rough treatment of the people by the lower police. The higher authorities emphaticallydeclare that they desire to be informed of every case of police brutality. It is, however, the general belief, I judge, that wrong doing in these matters still goes on, though not to the extent that it did even two years ago. Several American physicians assured me that for a year they have not had cases brought to their hospitals of persons injured by the police.

"It is the desired purpose of the Government General to remove all discriminatory treatment as between the races and to promote the complete psychological unification of the Korean and Japanese people. This is to be attained, they say, not by compulsion but by free acceptance on the part of the Koreans through appreciation of the Japanese culture and by the personal advantages secured by those who cordially co-operate. Intermarriage is endorsed and desired by the government, the Korean Prince having recently been married to a daughter of the Japanese Imperial House. This by way of example for the people. The number, however, of Japanese-Korean marriages is still negligible.

"Japanese employed by the Government General are encouraged to study the Korean language, bonuses being granted for definite achievements. Koreans are also encouraged to learn Japanese, which they do with such correctness and fluency that many easily pass for Japanese among the Japanese themselves."

YES, HE HAD NO LIQUOR; IT WAS SHELLAC BUT HAD A WONDERFUL KICK

All drinks that make the heart merry and the eyes bleary are not bought from the bootlegger nor the drug store. A recent case which has come to the attention of the police indicates that the stuff may be obtained at hardware stores.

The man arrested and jailed yesterday was intoxicated with alcohol obtained from shellac. Perhaps it would have tested the skill of a chemist to separate the small percentage of alcohol from the other ingredients of the shellac but this man is reported to have resorted to a very simple expedient.

It is said that he pours the liquid through bread, a process which leaves all the ingredients except the alcohol in the bread. Though the manner of his obtaining the drink may be somewhat in question, there is no doubt that he was entirely under its influence when arrested.

COAL OPERATORS HAVE TROUBLES

Various Excuses For Idleness Offered By Bituminous Workers—Report of Commission

WASHINGTON, Aug. 21.—Coal operators have enough trouble with the regularly called strikes which affect everyone, but on top of such labor troubles, they are continually facing walkouts at various mines for the most trivial and often ridiculous reasons. A record has been compiled covering the state of Illinois touching such strikes as these, and a number of sample cases laid before the United States Coal Commission. Here are some of the cases related to the Commission:

At Sherman 403 men refused to work, saying that "one of the mules was in bad condition."

At Staunton and Mt. Olive 760 men employed at two mines of the same company refused to work because it was "raining too hard."

At Pickneyville 218 miners refused to work because the starting time of the mine was delayed 10 minutes, due to making repairs to the shaft.

At Johnson City the men were paid on the 15th but the bank closed that day at 4 o'clock instead of 6, as was customary on paydays. The following day all the men refused to go into the mine.

At Totuca the mine manager was afraid to use one shaft and asked the men to use the second shaft that day. One hundred and one men went home and the men were idle that day.

At South Wilmington 457 men were idle one day because the flag was not placed over the tipple.

At the same mine the men once refused to work without giving any reason.

At Cambria 224 men struck for three days because the company refused to allow them to park their automobiles where they interfered with the movement of materials and mine cars.

At Pekin 108 men were idle for fifteen days, making no demand at all on the company.

$1,300,000 OFFICE BUILDING FOR SPARTANBURG

SPARTANBURG, S. C., Aug. 21.—It is announced by the Chamber of Commerce here that a ten-story building to cost $1,300,000 will be erected on the Montgomery property of North Church street. There will also be a large auditorium. Lockwood, Green & Co., engineers of Boston and Atlanta, with an office in this city, are the architects for the new building and it is stated that sketches will be made public within a short time. The site on which the building will be erected has a frontage of 211 feet on North Church street and extends along Elm street to a depth of 132 feet.

A committee to arrange financial details in connection with the erection of the building is composed of the following: V. M. Montgomery, chariman; A. M. Law, and Dr. H. A. Ligon.

To Erect $350,000 Hospital Building

By Associated Press.

ST. LOUIS, Mo., Aug. 21.—Plans for the erection of a $350,000 hospital building here for the Christian Hospital are being worked out in detail by the Board of Trustees of which Dr. F. C. Esselbruegge, president. The new building will be equipped with modern conveniences, including a roof garden for convalescent patients. Hoebner, Baum & Froese of St. Louis are the architects, and Dr. C. A. Mellies is chairman of the building committee.

FIVE BANDITS STAGE DARING TRAIN HOLDUP

Western Bandits Discuss Affairs of Day Previous to Looting Car—No Trace of Robbers Found

REGISTERED PACKAGES OF UNKNOWN VALUE IN LOOT

By Associated Press

OKLAHOMA CITY, Aug. 21.—Four men under the leadership of a suave outlaw who chatted amiably with his victims about the merits of a well-known political writer and discussed current events of the day, held up a Missouri, Kansas and Texas passenger train southbound near Okesa, Okla., today and robbed the mail and express cars of registered packages, value of which has not been estimated. Postal authorities and county officials are scouring eastern Osage county, long known as a retreat of outlaws. No trace of the robbers has been found. Four men who did the actual work of rifling the cars were apparently far greener than the cool, polite veteran who cautioned them against unnecessary violence and who rebuked one particularly brutal bandit several times for manhandling a victim.

By Associated Press

OKLAHOMA CITY, Aug. 21.—Five masked bandits looted mail and express cars of Missouri, Kansas and Texas passenger train near Okesa Oklahoma, early today and escaped with about twenty registered packages after overpowering the members of the train crew. No estimate of the value of the loot was available. Posses, directed by the Sheriff of Osage county, are scouring the country in search of the bandits who fled in motor cars.

2,000 CANADIANS TO ATTEND ODDFELLOW MEETING

CINCINNATI, Aug. 21.—More than 2,000 Canadian Odd Fellows will attend the sessions of the Sovereign Grand Lodge of Odd Fellows, to be held in Cincinnati September 17 to 22, according to General George M. Hermiston, of Toronto, general commandant of the Uniformed Branch of the order.

General Hermiston came to Cincinnati to confer with local committees, and spent considerable time with the parade committee, for the Patriarchs Militant will form an important contingent of the four mile parade, which will be one of the features of the convention.

Four cantons of the uniformed body of Canada will come in special trains and there will be a complete company of Ladies Auxiliary accompanying them.

Virtually every lodge of Odd Fellows in Hamilton county has increased its membership as a result of the interest aroused by the coming of the convention.

WESTERN KENTUCKY TOBACO INJURED BY WILD FIRE

By Associated Press.

LEXINGTON, Aug. 21.—Tobacco in Western Kentucky, dark Bell, is being injured by wild fire at present, according to message today from W. D. Valleau to state experiment station here. He says, however, that bacterial black fire and angular leaf spot are doing some damage to ripe or nearly ripe leaf. Valleau was sent to Western end of the state at the request of the Dark Tobacco Growers Cooperative Association to investigate reports of wild fire damage.

HARLAN BOY BRINGS FRIEND HERE IN AEROPLANE

Bryan Whitfield of Harlan was here in his aeroplane Sunday. He brought Miss Clay Carter whom he left here. Landing at the aviation field at the Junction and staying a short while he flew back to Harlan. The aeroplane is the first that has been seen in this vicinity for some time. Miss Carter wil lvisit Mrs. Howard Hambright here.

TWELVE CENTS NOW BUYS A MILLION GERMAN MARKS

By Associated Press.

NEW YORK, Aug. 20.—German marks fell to new low levels today selling at twelve cents a million. Two weeks ago the low price was seventeen cents.

A THOUGHT

Her sins, which are many, are forgiven, for she loved much, but to whom little is forgiven, the same loveth little.—Luke 7:47.

Little vicious minds abound with anger and revenge and are incapable of feeling the pleasure of forgiving, their enemies.—Chesterfield.

PROSPECTS BRIGHT FOR MIDDLESBORO

In spite of the fact that this time of the year is usually one in which a slump in building and industry is usually experienced, business in Middlesboro is holding up remarkably well and the prospects for its continuance even its improvement are good.

Every day new residence houses are started. This is evidence not only that the town is growing but also that money is plentiful. There are other larger buildings for business purposes being constructed and surely these augur favorably for future business conditions.

The coal industry the very life blood that keeps industry active in this section, shows signs of improvement, in fact, has already begun to improve. Work in this line will become better as winter approaches.

Middlesboro has big days prosperous ones for merchants and businessmen and happy ones for all of us ahead. The Harvest Festival which will bring its thousands of visitors from three states will begin in four weeks. During the three days that these visitors from the rural sections will be here they will spend thousands of dollars. Many of them will buy their winter supplies while they are here.

Certainly the Merchants Association is due full credit for this coming event which will benefit the town in general.

The Festival will hardly have ended before the Kiwanis convention which promises to be one of the biggest events ever held in this section of the state will begin.

All things considered we have no reason to complain and many reasons to be thankful for the present business conditions and the prospects for the immediate future.

AFTER DEATH

Conan Doyle predicts that the late President Harding will try to communicate from the spirit world by medium. You will read more of this later, as you follow the daily news.

The idea of course is that Harding passed on before he had finished his work here on earth and that he will want to send a guiding voice from the Hereafter.

The matter is so largely speculative that it can hardly be discussed editorially. But I pondering the rather abrupt death of Warren G. Harding—a death coming at the peak of his popularity—it must occur to many of us that no man ever really finishes his work here on earth.

We are withdrawn from the scene just as we begin to reap the fruits of our efforts. Five-sixths of human life is gone before he begins to get sound sense—vision, judgment, wisdom.

Life seems to be a training school, a sort of spiritual gymnasium. In it we develop spiritually the same as we develop our muscles by exercise with dumbbells by work or by golf or other sports.

Our training begins as soon as we are conscious in the cradle. It is a training that never stops. And in all probability, it never ends.

Every person at times wonders "Why am I living? What is it all about?" Especially so when we gaze out among the stars in the vast sky which is our greatest symbol of infinity and eternity.

Many find the answer in religion.

There must be a purpose. God created all.

That purpose is not plain. It appears until is not intended for us to pierce the veil. Men of all generations for thousands of years have attempted to solve the riddle of life, until death and we do not find answer. the answer then were the answer.

But it seems gradually to be dawning on humanity that it is here on earth to improve itself, each person individually. That is our real function in life. And the improvement of self spiritually is the only real success.

The struggle is a mental one although we deal with material things. In the mind is the clash of real and unreal, good real failure real success. Nothing is finally left of us except thought and spirit.

Tom Sims Says

Wife in Flint, Mich., claims husband tried to drown her; relatives by pushing her off a bridge.

In spite of reports, Santa is alive and well, up in the mountains of Tennessee is 106 years old.

When the two New Orleans coaches with 18 kids each go to a movie people think kids is a picnic.

Commodore passed through Topeka section of Kansas. Either that or a couple of wheat farmers got mad.

Birmingham Ala. filling station employee got arrested for robbing people while off duty.

Man who amputated a bull's nose in Three Lakers, Mich., escaped.

Swiss rifle team is coming over. It is not true they learned while shooting holes in cheese.

Robb Hartman, 12 year old Kansas golfer made a hole in one. His father will recover.

Accidental possibilities had better made all the noise they can before the world series.

Postmaster of Fort Worth, Texas made a golf hole in one. That may be why

SONG

Daughter of Egypt, veil thine eyes!
I cannot bear their fire;
Now will I touch with sacrifice
Those altars of desire.
For they are flames that shun the day,
And their unholy light
Is fed from natures gone astray
In passion and in night.

The stars of Beauty and of Sin
They burn amid the dark,
Like beacons that to ruin win
The fascinated bark.
Then veil their glow, lest I forswear
The hopes thou canst not crown,
And in the black waves of thy hair
My struggling manhood drown!

—Bayard Taylor.

Measuring Party At First Methodist Church

A measuring party will be given at the First Methodist Church on Thursday evening at 7:30 o'clock.

Miss Clark Gives Birthday Party

Miss Myrtle Clark was hostess at a party yesterday at her home on Cumberland avenue on the occasion of her eleventh birthday. About twenty guests were present. A green and pink color scheme was carried out; the favors were caps made of crepe paper. Miss Allene Matthews of Knoxville who is the house guest of Miss Clark assisted with the serving.

Party Given At Harrogate

Miss Lillian Mason entertained with a card party at her home in Harrogate in honor of her house guests, Misses Ada and Vera King, of Pennington Gap. A musical program was given. The guests were: Misses Minnie Mae Eads, Hattie Eads, Otella Overton, Francis Thompson, Laura Barlow, Ethel Beatty, Virginia Beatty, Mary Fulton, Roxie Chambers, Ada King, and Vera King; Philip Mason, Bradley Mason, Earl Carr, Wade Garrett, Joe Carr, Maxwell Anderson and Roger Rector.

Miss Elizabeth Thomas Entertains School Friends

Before leaving for a visit with friends in Louisville Miss Elizabeth Thomas entertained at her home on Arthur Heights last night as a special courtesy tomanyof her friends who will be gone away to school before she returns from her visit.

Dancing and cards occupied the evening. An ice course was served.

The guests were: Misses Dorothy Sprague, Laura Gunn, Katherine Gunn Ada Ralston, Helen Ralston, Lillian Weinstein, Edith Hambright, Margaret Sampson, Elizabeth Sampson, Cora Belle Scales and Mary Sue Thomas; Jim Sampson, Harry Center, George Sewell, Jimmy Edmonds, Claude Thomas, Albert Weinstein, Harold Greaver, Campbell Edmonds, Wheeler Woodson, Ted Mercer, Humberto Terry and Henry Sewell.

BEAUTY EXERCISES

The favorite lodging place of superfluous flesh is about the waist and hips.

We used to keep this accumulation of adipose tissue under control by means of stiff corsets. Today, we must get rid of it entirely.

That old trick of touching the floor with the tips of the fingers, holding the knees stiff, is one way to discourage the fat cells. All twisting and bending exercises are good.

But there are other exercises that are just as effective and not quite so tiresome.

Here is one you would do well to master.

Stretch out on a flat surface with the arms stretched out over the head and the feet just escaping the floor or bed. Draw the knees as far over the chest as they will go, at the same time bringing the arms to the sides. Then return to your first position, never letting the feet touch the floor.

This will give you absolute control of your waistline and will reduce heavy thighs most effectually.

Or Try This

Lying flat on your back, raise the legs alternately, and then together to a position at right angles with your body.

Jumping up and down on the ball of the foot is a good way to reduce the calf and strengthen the muscles of the foot and ankle.

Or stand on your toes, as high as you possibly can raise yourself, and balance there while you count 10. Then walk on your tiptoes, or walk with your foot flat on the floor, taking a kick with each step.

More Strenuous

Kicking and swinging the legs with a pivot-like motion from the hips spells the ruination of fat cells, but requires considerable effort. Walking about on the hands and knees is very good for the figure, though it must be admitted it is not a graceful exercise.

Of coure, you know that in your thirties and forties you have a natural tendency to exercise less, eat more and consequently to become thick about the waist and hips. But you must combat this if you want to look young, and you must be conscientious about your diet and exercise.

I prefer to take these exercises in the morning, and I recommend that you do the same. But if you neglect them in the morning, won't you please do them before you retire?

Salads

A salad may often serve a two-fold purpose. A fruit salad will take the place of dessert and a substantial salad will take the place of a heavy meat course.

The suggestions for summer menus may help you. If you are serving a substantial salad precede it with a cup of hot bouillon. While the bouillon is hot, in and of itself it does not produce heat in the body. A creamed vegetable on toast contains protein as well as the vegetable minerals and boosts the salad calories. A fruit dessert in a form of pudding to add bulk and satisfy the appetite is a happy choice for this sort of meal.

Cheese and Nut Salad

One-half pound fresh cottage cheese, 1 cup chopped nut meats 1 green pepper, 1 fresh cucumber, 3-4 cup sweet cream, 1 teaspoon salt, 1 teaspoon paprika.

Pare and slice cucumbers. Dip pepper in boiling water and slip off outer skin. Open and remove seeds and white ribs. Mince. Mix cucumber, nuts and pepper. Add cream and salt to cheese and mix well with a fork. A spoon would break the cheese and make the whole pasty. Combine mixtures and serve on crisp dry lettuce. Sprinkle liberally with paprika. The lettuce can ruin this salad if it is wet and not properly prepared.

Spinach and Egg Salad

One cup cooked spinach, 4 hard boiled eggs, 1-2 cup button mushrooms, lettuce, mayonnaise.

Broil mushrooms in butter. Mince and add liquor and mushrooms to spinach. Cut eggs in halves lengthwise. Remove yolks and fill whites with spinach mixture. Arrange on lettuce cups, rub the yolks through a ricer and sprinkle over stuffed eggs. Garnish with strips of pimento and serve mayonnaise in a lettuce leaf at one side of the plate.

Harlequin Salad

One cup watermelon or cantaloupe balls 2 bananas, 4 ripe plums, 1-2 cup diced apples, 1-3 cup maraschino or sunshine cherries, 1-4 cup minced mint leaves, 2 oranges, 1 lemon, 1 1-2 tablespoons granulated gelatin, 1-3 cup cold water, 1 cup sugar, broiled salad dressing, 1-2 cup whipped cream.

Squeeze juice from oranges and lemon, add sugar and mint leaves and enough boiling water to make two cups of liquid. Bring to the boiling point, remove from fire and stir in gelatin softened in cold water. Stir until dissolved and let stand until beginning to set. Dice bananas, pare and remove stones from plums and cut in dice. Drain cherries from sirup and cut in quarters. Mix fruit and add to jelly. Let stand until chilled and firm. Serve on lettuce with boiled dressing topped with whipped cream.

Combination Fruit Salad

One-half cup diced apples, 1-2 cup diced peaches, 1 orange diced 1 banana, 1-2 cup diced pears 1-4 cup chopped and seeded raisins, mayonnaise, lettuce.

Mix fruit with enough oil mayonnaise to make moist. Serve on lettuce.

Pear Salad

Two large pears, 1 package neufchatel cheese, 2 teaspoons peanut butter, tablespoon cream, boiled dressing lettuce.

Pare pears and cut in halves. Remove cote. Work cheese, peanut butter and cream to smooth well-blended mixture. Fill cavities of pears with mixture. Serve on lettuce masked with boiled dressing.

CLIMAX NEWS

Will Lane and Viola Fry slipped away to Cumberland Gap Saturday afternoon and were married by Squire Brooks much to the surprise of their friends here. Mrs. Lane is the thirteen year old daughter of Mr. and Mrs. W. H. Fry of this place.

R. L. Pridemore and family left the latter part of last week for Scott county, Tenn., where they will spend two weeks with Mrs. Pridemore's family.

A Sunday school was organized at the community hall last Sunday, with W. E. Johns as superintendent and Mrs. F. B. Whitaker as secretary-treasurer. Arrangements are being made to have services each Sunday.

Next Saturday night a pie supper will be given at the Red Men's hall Everybody invited.

Mr. and Mrs. T. H. Pennington and family of Chattanooga, Tenn., have recently moved into our camp - Mr. Pennington has a contract in our mine.

Mr. and Mrs. L. W. Yeary and family spent Sunday with Mr. and Mrs. Taylor Martin at Fern lake.

They say baseball is replacing bull fighting in Spain. Maybe the umpire replaces the bull.

BUILDING

GARAGE BUILDINGS ALMOST COMPLETED

Rennebaum and Dort Agency Buildings Nearing Completion—Both Of Modern Construction

Two capacious garage buildings are nearing completion in Middlesboro These are the Rennebaum garage on Fitzpatrick avenue and the Evans and Ramey building at the rear of the City Barber shop.

The Rennebaum building which is practically finished except for interior work is located on the Dixie Highway, an ideal place for a garage. It is constructed of brick with concrete foundations. Lee Rennebaum began the operation of a gasoline sales station there several days ago.

The Evans and Ramey building which has the combined width of the City Barber shop and the Shellmire building and which extends back to the alley is nearly finished. The brick work is done and slag is now being spread for making a concrete floor. The owners, agents for the Dort car, will use it as a sales, service and storage place.

U. S. REPORT IS BUILDERS' AID

A government report on "Recommended Minimum Requirements for Small Welling Construction" recently issued is a long step forward for the building industry. It was prepared by a committee of eminent engineers and architects appointed by Secretary Herbert Hoover to dispel the confusion in present building codes and to reduce the cost of building construction by modifying those requirements which call for a wasteful and unnecessary use of materials and labor.

It is noteworthy that this committee recommends the use of eight-inch walls of concrete brick, block or tile for homes of two stories, since their investigations convinced them that walls of this thickness were amply strong and rigid to carry loads. A minimum average compressive strength of 700 pounds per square inch and a minimum absorption of ten per cent in forty-eight hours is recommended for concrete block. Monolithic walls not less than six inches are also allowable.

The report stresses the importance of good foundations and good joists and recommends a lower allowable strength for concrete block than for clay building tile because the relatively thicker shells and webs of the latter afford a better distribution of such stress at the mortar joints.

The committee unanimously agrees that noncombustible roof coverings should be used in all buildings in congested areas on account of the well recognized fire hazard of combustible roofing materials. Proper chimney construction and fire stopping is emphasized.

The Superintendent of Documents Washington, D. C., can supply copies of the complete report at slight cost.

KENTUCKY WEEKLY INDUSTRIAL REVIEW

Georgetown—New boulevard lighting system being installed.

Brooksville—State roads in this county being resurfaced: Brooksville-Augusta road nears completion.

Eastland—Wahl Manufacturing Company to erect new warehouse; contract to be let for new factory plant.

Clay City—Work on Kentucky-Virginia highway, started in eastern portion of city.

Brooksville—New modern school building under construction.

Louisville—Kentucky Wagon Manufacturing Company to operate on full time schedule soon.

Ferguson—Twenty-five thousand dollar contract awarded for contraction of new Methodist church.

Cloversport—Local receiving station of Heinz Company preparing for heavy tomato shipments.

Smith's Grove—New $70,000 tobacco warehouse to be built.

Paducah—Twelve counties in district to form egg pool.

Covington—New $250,000 moving picture theatre completed.

Louisville—Ohio Valley Electric Company increases capital to $800,000, due to rapid growth in business.

Scottsville—Dark Tobacco Growers Cooperative Association to build $30,000 receiving station here.

Hazard—New high school being constructed.

Stanton—Construction starts on new building to house post office.

Shelbyville—Louisville Gas Company secures leases on 200 acres of land in county; drilling operations for oil and gas under way.

Hazard—Heavy freight shipments leaving local yards every two hours.

Bardstown—Local dealers ship 1,500 head of cattle totaling $225,000, to Consolidated Beef Company of Philadelphia.

Total average of tobacco this year amounts to 657,000 acres, an increase of 12,000 acres over last year.

Shelbyville—Shelby County Building & Loan Association increases capital stock to $500,000.

Taylorville—Baptist church to have new addition, many improvements to be made to present building.

Louisville—Louisville Railway Company to purchase 25 new trailers at total cost of $369,412.

Cloverport—Construction of Louisville-Paducah highway between here and Hardinsberg completed.

Hazard—New telephone system under construction.

Louisville—Plaza Hotel Company to purchase and operate chain of hotels within 200-mile radius.

Hazard—Contracts to be let for construction of several streets.

Mercer—New $75,000 addition contemplated to local hotel.

Frankfort—State highway commission to let $650,000 contract for construction of 31 miles of road and four bridges.

Hazard—Contract to be let soon for drain and grade work on roads from this point to Lotts creek.

Sturgis—Work starts on boulevard drive leading to Kiwanis lodge.

Henderson—Contracts awarded for paving 33 blocks of streets.

Louisville—Kosair temple to be erected soon, to include modern hotel, total cost to be $1,500,000.

Contrasted with its disadvantageous position with reference to cables, the United States is in a peculiarly good situation with regard to wireless. Our location on the globe preeminently fits us to the radio central of the world. Europe and Asia both send to us and their messages are forwarded by us in the proper direction, or relayed to South America, as the case may be. London is the heart of the cable, but New York is the center of the radio world.

Under government operation rail road losses of freight totaling $119,800,000 in 1920 decreased to $11,500,000 in 1922 under private ownership. The freight was lost, damaged or stolen in transit.

BUILDING NOTES

Mrs. W. A. Cooke is building a four-room cottage on Maxwelton. It will be for sale when finished as will also the four others that she intends to build.

Jim Smith is erecting a four room bungalow in the West End.

Louis Barkley is preparing to build a residence house in the West End.

Roscoe Turner is building a handsome four-room bungalow on Edgewood road.

A counter and other fixtures are being installed in the new Turner building on Nineteenth street.

The addition to the small building occupied by the W. H. Colson motorcycle agency is practically finished.

Stanley McAfee is finishing the cornice which was torn down by a storm on the City Tailoring building.

R. L. Maddox is building a residence on Exeter between 20th and 21st streets.

H. R. Chandler is installing a Holland Hot Air furnace.

Mrs. J. R. Surmann and C. F. Huff are having furnaces installed in their homes.

Charles Dalton and Harvey Williams are building five-room bungalows on Exeter avenue.

G. W. Bers is building a home.

Dr. P. T. Gibson is building on Petersboro.

Mike Coyne and J. A. Saylor are each building a five-room bungalow at Ille Junction.

A handsome glass and steel showcase and counter has been installed in the sales room of the Morch Motor company.

$600,000 Hotel for Lakeland

LAKELAND, Fla., Aug. 21.—A site has been secured here at Main street and Massachusetts avenue by the Adair Realty Co. of Atlanta which will erect a hotel at an initial cost of $600,000. The building will be nine stories high, with a basement and propably a roof garden, will be constructed on a plan to permit the addition of wings later. It is stated that work will begin about September 1.

$50,000 For Signs

CINCINNATI, Aug. 21.—A bond issue of $50,000 is proposed by Mayor George P. Carrell and city officials to provide for street signs to be placed at all intersections in the basin of the city of Cincinnati. There are 600 such intersections.

NOTICE

Notice is hereby given that the City of Middlesboro, Ky., at the office of the Clerk of said city, up to noon on the 30th day of August, 1923, will receive sealed bids for the construction, repair, reconstruction and improvement, including curbing and guttering, of Lynnwood Road from the East curb line of Englewood Road to the East curb line of 24th Street; and 18th Street from the North curb line of Cumberland Avenue to the North curb line of Lothbury Avenue; and 19th Street from the North curb line of Cumberland Avenue to the South curb line of Lothbury Avenue, including the intersections thereof, in Middlesboro, Ky., at the exclusive cost of the owners of real estate abutting said streets in accordance with ordinances, plans, and specifications heretofore adopted by the Board of Council of the City of Middlesboro, Ky., and of record in the office of the Clerk of said city.

Said bids will be received for the construction, repair, reconstruction and improvement of said streets competitively with concrete base and concrete wearing surface, concrete base with Kentucky Rock Asphalt wearing surface and limestone base with Kentucky Rock Asphalt wearing surface and scarifying and resurfacing in accordance with plans and specifications for each of said types of improvement heretofore adopted by the Board of Council of said city by ordinances of record in the office of the Clerk of said city in Minute book "F", page 463 etc., Minute book "G", page 67 etc., Minute book "G", page 141, etc., and Minute book "G" page 495, etc., except the teufoot gutters.

Bids to be accompanied by certified check for $3,000.00.

Right to reject any and all bids reserved by the city.

CITY OF MIDDLESBOROUGH, Ky.

By J. H. Keeney, Mayor.

M. G. Hubbard, Chairman of the Street Committee, Board of Council, City of Middlesboro, Ky.

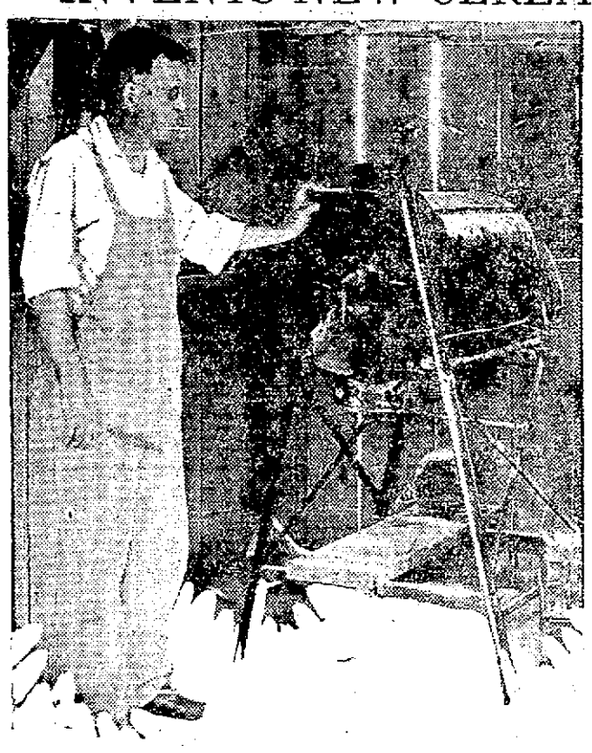
C. N. MILLER, BLIND MAN INVENTS NEW CEREAL



CHARLES N. MILLER IN HIS WORKSHED

BAKERFIELD, Calif., Aug. 18.—Once more Charles N. Miller is proving that a severe physical handicap need not halt one on the road where live those tantalizing twins—fame and fortune.

Miller is blind. Has been in perpetual darkness for 35 years. During that time he became nationally known as ditor of the National Christian Advocate, published by and for the blind.

Now he heads a new $250,000 incorporation that will shortly market on a national scale a new breakfast cereal food, his own invention, by machine of his own device.

His is a story of genuine human interest romance. It has been the inspiration to his neighbors; it will be to others.

Shortly after he lost his sight, Miller entered a college for the blind, supporting himself summers by book canvassing and selling of school supplies. On completion of his education, he became pastor of a church here, leaving this only to become editor of the National Christian Advocate.

There his work attracted attention. He labored ceaselessly for those afflicted like himself. His cheerfulness permeated all those with whom he came into contact.

Three years ago he returned. The old home town "looked" pretty good to him. He opened a store. His capital was small, and his shop was the screened porch of his home. In the back yard he set up a little mill and began grinding wheat grits for his customers.

One day a homesick old German came into the stoe and asked the blind grocer if he could prepare him a special breakfast food—"like mother used to cook in the old country."

Miller experimented with the formula given him by the customer and from it he eventually evolved a new food of broken grains which instantly gained local popularity.

He wanted to expand. Local capital came to the rescue. Today, Miller is general manager of the Charles N. Miller Company, Inc., and now is awaiting installation of $5,000 worth of machinery, on which he has applied for patents.

He promises to become America's first blind financier.

What are his "philosophies" of life? One doesn't need to ask him. And one doesn't. He lives his philosophies; does not talk about them.

Cheerfulness, despite the most dread ed of handicaps. Mental activity, despite a natural tendency to allow one's mind to brood on the inexntable inequality of a nature that blesses some with sight and leaves others to live in everlasting night.

Coldest Room in World Has Temperature of 317 Below

WHERE TEMPERATURE IS 317 DEGREES BELOW ZERO

FORT WORTH, Tex., Aug. 18.—Fort Worth folks have as much hot weather complaint as any other town's citizenry—yet right here is the coldest spot on earth!

Furthermore, it stays that way—at a temperature of 317 below zero. That's right, 317 below.

The government's helium plant is the scene of this extreme coolness. Natural gas is liquefied at this temperature, so the helium can be extracted for use in the army and navy dirigibles.

Special safeguards are maintained to keep these rooms insulated from the rest of the plant. There's a reason. Lieutenant R. E. Davenport, in charge gives some.

"If a person would just put his hand in that temperature, his hand would in one second freeze so solidly that it would drop off.

"Put a fresh piece of beefsteak in there and then drop it to the floor. It would break into a thousand pieces, flying in all directions.

"A lead pencil would do the same. Steel pipes, when subjected to but part of this temperature, shrink so quickly that all paint drops from them. A human body would also become so brittle it would fall to pieces."

"Helium, which is extracted from the liquefied gas, is non-inflammable, and possesses 92 per cent of the buoyancy of hydrogen. Its use in dirigible airships will make them immune from the explosion disasters of the last few years.

After helium is extracted, the gas goes back into the city mains, as good as ever for cooking the family dinner.

Meantime, Fort Worth folks choose to swelter under the August sun, rather than frequent the city's coldest spot.

Prohibition has been postponed a month in Constaatinople, and indefinitely in the U. S.
